

SPA TREATMENT MENU

enturies behind ancient walls tell a tale of community and the offering of sanctuary, healing and comfort.

Today, The Spa preserves that history through the original 17th Century vaulted ceilings and rustic walls, which showcase the monastic heritage of this beautiful property. The Italian heritage of bathing is presented in the form of a Thermal Suite – a collection of heated spaces interconnected via arched openings and changes of levels... a discovery around each corner. The Suite includes a stunning double-height vaulted tepidarium with pomegranate infused foot spas and heated mosaic loungers, domed aromatic steam room, crushed ice fountain to refresh between thermal bathing, stone sauna, hydrotherapy-pool and emotion shower.

Treatments at The Spa can be performed in a variety of areas. Individual spa cabins are tucked inside the ancient walls and are complete with shower and changing area. The most exceptional treatment room, the Spa Suite, is a stunning 80m² double-vaulted space with rasul, steam room, double wet and dry treatment couches, manicure/pedicure space, relaxation area, private dressing and grooming space and a garden terrace... *a private Spa within a Spa.*

Alternatively, guests can enjoy a treatment outdoors under the shade of a pergola overlooking the length of the Coast within the privacy of the Spa Garden Terrace. It is a place of abundant scents - rosemary, lavender, jasmine, rose, etc. The perfect place to unwind.

Dating back to the 1600's, as Florence, along with the rest of Italy and Europe became determined to live a life of beauty and sensual experience, Officina Profumo-Farmaceutica di Santa Maria Novella began to make cosmetic and healing remedies derived from the naturally occurring plants and flowers of Italy and the Mediterranean region.

Today, their ancient and beautiful recipes of fragranced lotions and healing creams and balms continue to focus on the delight and effectiveness of natural ingredients while embracing a results oriented philosophy. The aromatic oils of Santa Maria Novella - summer oil of lemon, bergamot and petit grain; deeply warm iris oil; aromatic herbs of rosemary, lavender and sweet orange; and the unique fragrance of pomegranate, made for Catherine de Medici - are a delight to the senses.

These wonderful aromas are woven into our thoughtfully offered treatments, presented in a setting of historic beauty, to provide a timeless sense of vitality and joy.

THERMAL BATHING

To enhance the benefits of your treatment and to maximize your enjoyment of our Spa, we invite you to give yourself extra time to enjoy the deeply relaxing warm waters of the vaulted hydrotherapy pool, as well as the ritual of thermal bathing, within our Thermal Suite.

Thermal bathing benefits include relaxation, improvement in the respiratory system, cleansing of the body and the strengthening of the immune system.

NATURAL STONE SAUNA

Relaxing and invigorating dry heat has a purifying effect on the body, relieving everyday stresses and boosting the immune system.

AROMATIC STEAM ROOM

Aromatically infused steam slowly heats and refreshes the body. Breathing is eased and the lymphatic system is cleansed, resulting in a glowing skin tone.

VAULTED HYDRO POOL

The wonderfully relaxing treatment pool is heated to body temperature with hydrotherapy jets that suspend you in the water while providing an effective water massage.

EMOTION SHOWERS

A selection of three water experiences with differing temperatures, aromas and water sensations. Explore the warm Mediterranean rain, cooling mist and gush showers, designed to refresh the mind and body. Use between each hot experience.

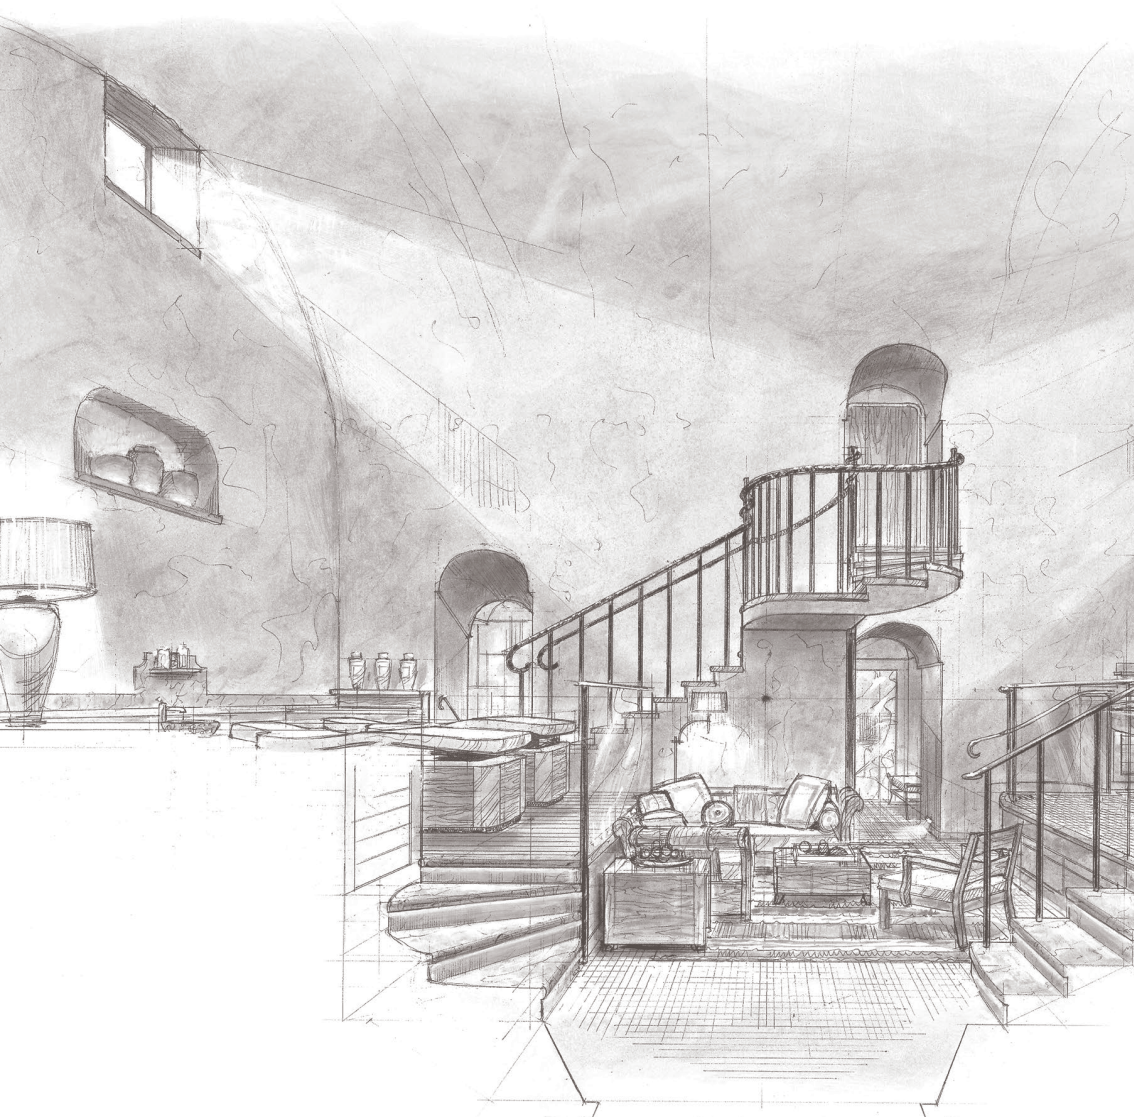

ICE FOUNTAIN

Cool down between the various hot temperatures of the thermal rooms by applying crushed ice all over your body. The contrast of temperature will boost your circulation and help close pores after each heat experience, a cooling option that stimulates and revitalizes the body.

TEPIDARIUM LOUNGE

Refresh between the various temperatures of the thermal rooms by relaxing on heated mosaic loungers with a soothing pomegranate infused foot spa and a refreshing beverage.

Swimsuits are required to experience thermal bathing and the vaulted hydro pool. Thermal bathing and the Hydro Pool are not available to pregnant guests. Check with your doctor that you do not have any condition that may be aggravated by the use of hot & cold bathing.
